

Kat Stevens Kudos

Kudos to Dr. Katharina Stevens (Philosophy) for her work on the university's Health and Safety Advisory Committee

Kat Stevens (Philosophy) is ULFA's representative on the university's [Health and Safety Advisory Committee \(HSAC\)](#). This past summer and fall, she put in a tremendous amount of unforeseen time and effort on this committee reviewing draft COVID policies, consulting with ULFA Members and other stakeholders, and raising questions at the HSAC. This work required a great many hours above and beyond the normal commitment required by the ULFA representative on the HSAC. Kat's effort's provided crucial feedback towards ensuring the policies ultimately put in place were as strong as they could be for the health and wellbeing of our Members and broader community.

Thank you Kat!
